Thanks for update.

Re Libby: lets go ahead and decide to delay briefing for Peter until after he returns (Sept 14th). If we can figure out when we will have a draft, we can find out where to send it to him if is in on travel. We can give him some good reading material for his plane ride home!

I don't want a separate noncancer document if we can avoid it on formaldehyde. I'll need to understand what we can and cannot do; for example, whether we can still move all of the animal data cancer work into Agency review and flag sections that are going to be revised within a few weeks after that based on epi work. It would be great to at least get the effect of the discussion on hazard done prior to Agency review.

I also am not sure what a "loose" schedule means.

My best time to meet tomorrow would be at 3:30. I must leave by 5:00 no matter where we are in discussions.

David,

Hi - we may want to meet and discuss the formaldehyde and LA Cancer project schedules as a group?

Issues:

(b) (5)

If you are available - perhaps we can discuss Wed afternoon? Tom will be in the office - and it will be more timely than waiting until Monday.

danielle

Paul,

Thanks for update.

This is not enough information, however. Let's discuss tomorrow.

My goal remains as it has been for some time getting the assessment into Agency review this month, and having any additional material we share with reviewers within at most a week or two of starting Agency review.

I also would like any late NCEA management comments, and any moa comments, to be available to the team by the date of the IRP meeting on August 17th.

What can we do consistent with that schedule.

Calendar Entry

Type:

Meeting

Subject: LHP data for reanalysis (corrected NCI data)

When:

Starts: Tue 08/11/2009 10:00 AM Local time

1 hour

Ends: Tue 08/11/2009 11:00 AM Local time

Who:

Required: Danielle DeVoney/DC/USEPA/US@EPA, Thomas Bateson/DC/USEPA/US@EPA

Optional: Bob Sonawane/DC/USEPA/US@EPA, Leonid Kopylev/DC/USEPA/US@EPA

FYI: David Bussard/DC/USEPA/US@EPA

Where:

Location:

Paul's office

Discuss questions and approaches. Follow-up to my note and ongoing thinking here.

Are you guys around today? I wanted to help with plans regarding potential HCHO analyses given mgt push for quick response.

Thanks for the further info. I've spent a little time reviewing. What is our current opinion on most relevant forms of leukemia ect given our biological reviews. (b) (5)
